Jessie M. Roberson, Assistant Manager
Environmental Restoration
DOE, RFFO

Attn: Peg Witherill

LETTER OF TRANSMITTAL: REVISIONS TO OPERABLE UNIT (OU) 7 DRAFT INTERIM
MEASURE/INTERIM RESPONSE ACTION DECISION DOCUMENT (IM/IRA DD) AND
CLOSURE PLAN - TGH-244-95

Action: Forward two copies each of the revised Draft IM/IRA DD and Closure Plan to the
Colorado Department of Public Health and Environment (CDPHE) and the
Environmental Protection Agency (EPA)

This letter transmits twelve copies of revisions to the Draft IM/IRA DD and Closure Plan. These
revisions specifically address comments 6, 9 and 10 received from the Department of Energy,
Rocky Flats Field Office (DOE, RFFO) Environmental Programs division. As stated in T. G.
Hedahl ltr (95-RF-06048) to J. M. Roberson, Operable Unit (OU) 7 Draft IM/IRA Decision
Document, August 1, 1995, resolution of comments 6, 9 and 10 were of particular importance to
the finalization of the document. Resolution of the remaining comments will be addressed in the
Final IM/IRA DD and Closure Plan.

In order to streamline the document review process, Kaiser-Hill and DOE, RFFO held a concurrent
review. Potential incongruities have been identified during that review. Specifically:

- Proposed Slurry Wall - If the leachate does not pose a threat and does not require collection
and treatments the requirement of a slurry wall should be re-evaluated.
- Long-term Leachate Control - Although the leachate does not pose a threat the public and/or
environment, it does not meet the OU 7 specific Applicable or Relevant and Appropriate
Requirements (ARARs) at the source area.
- East Landfill Pond and Dam - If the East Landfill Pond and Dam are retained as part of closure
the associated operation and maintenance costs must be considered and integrated with
other Site activities.
- Grading Plan - If the East Landfill Pond and Dam are retained, the grading plan for the landfill
cap must be altered to minimize pond maintenance activities.

Transfer of this document to the CDPHE and the EPA will fulfill the August 31, 1995, milestone of
"Submit Draft Phase I Interim Measure/Interim Response Action Decision Document."
